CERAMIC GRILLS & ACCESSORIES

THE PRIMO STORY

In 1995, George Samaras made the move from his homeland of Greece to the United States. On Thanksgiving Day, George experienced a kamado roasted turkey for the first time and was amazed by the delicious flavor. He was so impressed, he bought a kamado for himself and cooked on it regularly. He told his friends and family about it and began shipping kamados back to Greece. Soon after, George had over 80 people in Greece requesting a kamado. George asked the manufacturer if he could begin distribution in Greece, but they declined his request.

Not to be deterred, George began making his own kamado cookers. He was told by many, including ceramic engineers, that it could not be done. He persevered and spent a great deal of time developing and testing his own formula for the refractory material to achieve the right blend.

In 1996, he was ready to sell his first ceramic grills. His manufacturing facility was a rented 700 sq. ft. space. Due to size restraints, he could only make two grills at a time and had to drive across town to fire them in a kiln.

Over the next several years, Primo grills grew in popularity as word spread about their quality and the fact they were the only ceramic grill made in the U.S. In 2000, Samaras' love for improvement and innovation led to the introduction of the Primo 2000 - a combination gas/ceramic grill. His idea was to use the superior heat and moisture retention characteristics of a ceramic grill mixed with the convenience of gas. It was an unrivaled product never before seen in the industry and over 700 were sold.

George soon discovered that an oval-shaped grill offered greater cooking versatility and efficiency. It forever changed the direction of Primo. The introduction of the patented oval-shaped grill in 2002 established Primo as a major manufacturer in the ceramic grill market.

Today, Primo is headquartered in a 92,000 sq. ft. facility in Tucker, Georgia and is available in more than 38 countries around the world.

WHAT MAKES US PRIMO?

AMAZING FLAVOR

The combination of our premium-grade ceramics and Primo Natural Lump Charcoal creates amazingly juicy food with true charcoal flavor. The ceramic shell helps food retain its natural moisture, unlike metal grills that pull the moisture out. Our charcoal is made from American hardwoods and infuses your food with a distinctively mild smoky flavor.

EXCEPTIONAL TEMPERATURE CONTROL

Cook as low as 150°F to smoke a salmon or to well over 850°F for sizzling ribeyes. Or cook “low and slow” for multiple hours to enjoy a succulent leg of lamb or tender pulled pork.

LIGHTS EASILY & HEATS QUICKLY

You can be ready to cook in as little as 15 minutes; the same time it takes to preheat a gas grill. Another great feature of our Natural Lump Charcoal is that it can be relit for multiple cookings.

LOW MAINTENANCE & SELF CLEANING

Primo ceramic grills practically take care of themselves. Periodic inspections ensure that your grill will perform and look great for years. Our grills also work like a self-cleaning oven.

WEATHER RESISTANT

Primo ceramic grills are made to live outdoors. Our premium-grade ceramics, glazes and hardware are made to withstand extreme climates. Depend on Primo Ceramic Grills wherever you live.

PREMIUM-GRADE CERAMICS

Primo ceramic grills are composed of a proprietary blend of natural materials to make the highest grade of ceramics available for superior heat and moisture retention. Combined with quality-controlled production processes and an unmatched firing temperature, our ceramics are significantly more efficient than other ceramic grills. Use less fuel, reach your desired temperature faster and reduce your cooking time with Primo.

Made in USA

GET IN THE

ZONE

THE PRIMO PATENTED OVAL DESIGN

THE ONE AND ONLY OVAL.

The Primo Oval offers true two-zone simultaneous direct and indirect cooking. That's a fancy way of saying that you get two very distinct cooking zones. Almost like using a grill and an oven at the same time. Grill steaks on the direct side and roast seafood or vegetables on the indirect side. No round grill offers so much cooking versatility.

The Reversible Cooking Grid, Heat Deflector Plates, Extension Racks, and other accessories allow you to create more than 69 different cooking configurations. No other grill offers so much versatility.

POPULAR COOKING CONFIGURATIONS

HOW A CERAMIC GRILL WORKS

Cool air is drawn into the bottom vent, then heated by the charcoal. The heated air convects around the food before exiting the top vent. The ceramic shell retains more heat than metal grills, and helps food retain more of its moisture than conventional grills.

Grill mouthwatering steaks, bake authentic wood-fired pizza, roast a turkey, or smoke a beef brisket to tender perfection. Any food and recipe can be cooked on a Primo. The possibilities are endless.

GRILLING & ROASTING:

Insert the cast iron firebox divider. Fill one side of the firebox with natural lump charcoal. Create two distinct cooking zones using a heat deflector rack and heat deflector plate. This allows you to sear a steak over direct heat while roasting tender vegetables or seafood over indirect heat.

GRILLING:

Fill the firebox with natural lump charcoal. Use the vents to control airflow for perfect grilling temperatures. The shape of the ceramics create convection and an even grilling experience that locks moisture into the food.

BAKING, ROASTING & SMOKING:

Fill the firebox with natural lump charcoal. Using two deflector racks and heat deflector plates, forms a central zone for full indirect cooking. Bake breads and cakes at 350°F, roast chicken to tender perfection at 425°F, or smoke your favorite BBQ low and slow at 225°F. You can raise the temperature even higher to 550°-650°F creating a wood fired pizza oven.

PRIMO OVAL XL 400

PRIMO OVAL XL 400

The **Primo Oval XL 400** is one of our most popular ceramic grills, and no wonder. It offers the largest cooking area and the patented oval shape creates extremely high cooking efficiency and accessibility. Grill, bake, roast or smoke any food. Made for grillers and barbecuers who share our passion for great food.

Available as “grill only” and our optional Primo Cart with Basket and One-Piece Island Top with two cup holders or any of our other Oval XL grill table models and carts.

Primo GO & GO Base

The Primo GO is a two-piece cradle and base for the Oval JR 200, making it the largest portable ceramic grill available. It's also great for at-home use on your deck or patio without the need for a grill table or cart.

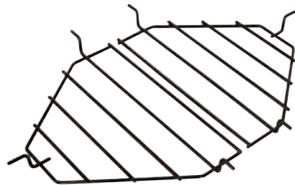

*Wood tables include four ceramic shoes for air flow under the grill base.

PRIMO ACCESSORIES

Heat Deflector Plates

Converts your grill into an oven, roaster and smoker. Heat Deflector Racks Required. *Comes in specific models for G 420, XL 400, LG 300, JR 200.*

Heat Deflector Racks

Holds the Heat Deflector Plates for indirect cooking and may be used to hold a drip pan. *Comes in specific models for XL 400, LG 300, JR 200.*

Heat Deflector Racks (Oval G 420 Gas Grill)

Holds the Heat Deflector Plates for indirect cooking and may be used to hold a drip pan. *For Oval G 420 Gas Grill only.*

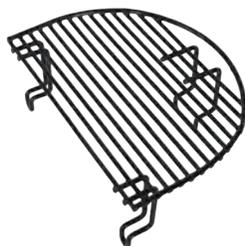

Heat Deflector Kit (Kamado)

Turn your Kamado into an oven, roaster and smoker. Includes one ceramic plate and frame. Frame also sold separately. *For Kamado only.*

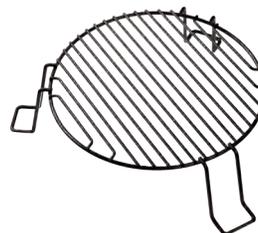

Fire Box Divider

The cast-iron divider creates simultaneous direct and indirect cooking and conserves charcoal. *Available for XL 400, LG 300, JR 200.*

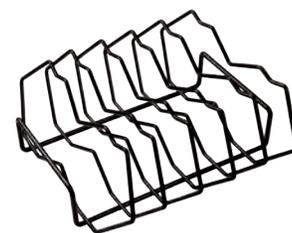

Extension Rack

Two extension racks will add almost 50% more cooking capacity. One rack per box. *Comes in specific models for G 420, XL 400, LG 300, JR 200.*

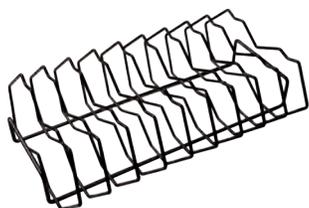

Extension Rack (Kamado)

Add 50% more cooking area, or invert with 13" baking stone for indirect cooking. One rack per box. *For Kamado only.*

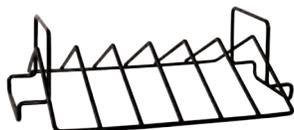

5-Slot Rib Rack

The rack allows you to smoke up to five racks of ribs or other food. Porcelain coated for easy cleaning. *Compatible with G 420, XL 400, LG 300, JR 200, Kamado.*

9-Slot Rib Rack

The rib rack allows you to easily smoke up to nine racks of ribs or other food. One rack per box. *Compatible with G 420, XL 400*

"V" Rack

Roast or smoke large cuts of meat. Invert it (shown) to hold multiple racks of ribs or other cuts of meat. *Compatible with G 420, XL 400, LG 300, Kamado.*

13" & 16" Baking Stones

Bake bread, casseroles, and wood-fired pizza. Available in glazed and natural finish. *16" model compatible with G 420, XL 400, LG 300.*

Sauce, Seasonings & Rubs

Specially developed for use as a seasoning or a rub to enhance the flavor of beef, pork, poultry, fish and seafood. Great on vegetables and salads.

PRIMO ACCESSORIES

Grill Covers

Protect your grill from the elements with our durable grill cover. Custom fitted for every grill configuration whether it's in a table, cart or cradle.

Cast Iron Grate

Our half-moon grate is perfect for searing meats and locking in the juices at high temperatures. Comes in specific models for XL 400, LG 300, JR 200.

Ash Tool

A "must have" tool to easily clean out the ash from your grill, or to stir the natural lump charcoal when lit.

Remote Thermometer

Measures grill and food temperatures. Alarm sounds when your target temperature is reached or if the grill falls outside programmed range.

Cast Iron Griddle

Our dual purpose griddle with a smooth and a grooved side allows you to fry, sear and sauté. Comes in specific models for XL 400, LG 300, JR 200.

Grate Lifter

Easily remove your cooking grate or any of our racks from the grill. Chrome plated steel for years of use.

Instant Read Thermometer

The pen thermometer accurately measures the internal temperature of your food. Large easy-to-read display with readings in 2 seconds.

Natural Lump Charcoal

Made from American hardwoods for wood-fire flavor. Burns hotter and longer than other brands or briquette charcoal. 20lb (9kg) bags.

Grate Cleaning Bar

Easily remove food residue from cooking grate rods. Will not damage porcelain coated or stainless grates.

Chicken/Turkey Sitters

Add flavor and moisture into whole poultry. Add herbs and spices to water or make "beer can" chicken. Chicken Sitter compatible with all grills.

Quick Lights Fire Starters

Light our Natural Lump Charcoal quickly and easily with our match-tipped fire starters. Strike them like a match and insert into the charcoal.

Gasket Replacement

These high heat-resistant replacement kits are designed to last for years. Specific kits for all Primo grill models.

American Made.  Amazing Flavor.
